

CURRICULUM VITAE

Robert Lee Wallace

Patricia and Philip McCullough Professor of Biology, *Emeritus*

Department of Biology
Ripon College
P.O. Box 248
Ripon, Wisconsin 54971-0248

Phone: 920-748-8760 (Work)
FAX: 920-748-7243 (Work)
e-mail address: WallaceR@Ripon.edu
<https://ripon.edu/bio/wallacer/>

ORCID 0000-0001-6305-4776

Education:

Ph.D. 1975 Dartmouth College, Hanover, NH 03755 (Biology; major areas Aquatic Ecology; Invertebrate Zoology): Dr. John J. Gilbert, mentor.
B.S. 1970 University of Rhode Island, Kingston, RI 02881 (major Zoology; minor Chemistry).

Professional Development:

2023, 2024 Adjunct Professor (spring semesters)
2019– Professor emeritus
2012–2024 Green Lake Association (Board Member) Environmental Action association
2014–2015 Chair, Dean of Faculty Search Committee
2003– Patricia and Philip McCullough 1969 Professorship in Biology
1998–2002 Coordinator of Faculty Development, Ripon College.
1996–1999 Chair, Department of Biology.
1996–1997 Faculty Liaison to the construction company during the science building renovation.
1992–1996 Chair, Farr Hall (science building) Renovation Committee.
1991– Professor, Department of Biology.
1984–1990 Chair, Department of Biology.
1983–1991 Associate Professor, Department of Biology.
1980, 1981 Visiting, Assistant Professor of Research, (summers), Department of Biological Sciences, Dartmouth College, Hanover, NH 03755.
1977–1983 Assistant Professor, Department of Biology, Ripon College, Ripon, Wisconsin 54971.
1975–1977 Research Associate (Postdoc), Department of Zoology (NJ-15), University of Washington, Seattle, Washington 98195. Dr. W.T. Edmondson (deceased): mentor.
1975 Visiting Assistant Professor, Department of Biological Sciences, Dartmouth College, Hanover, New Hampshire 03755.

Editorial Boards:

Animals: Aquatic Animals section, Academic Editor. (2018–current) —

<https://www.mdpi.com/journal/animals/editors>

Hydrobiologia: (2021–current) — https://www.mdpi.com/journal/hydrobiologia/editors?page_no=2

Professional Memberships:

American Association for the Advancement of Science; American Microscopical Society; American Society of Limnology and Oceanography; Association of College and University Biology Educators; Ecological Society of America; Societas Internationalis Limnologiae.

Honorary Societies:

Phi Kappa Phi (Academic Honor Society); Phi Sigma Society (Biological Academic Honor Society); Sigma Xi (the Scientific Research Society of N.A.)

Grants Awarded:

- 1975 Ecology of Sessile Rotifers (W.T. Edmondson and R.L. Wallace (co-principal investigators) NSF BMS 75-03107.
- 1977 Above renewed. DEB 75-03175 A01.
- 1980 Small-College, Faculty Supplement Award to Research Grant DEB 78-02882; R.L. Wallace Small-College Faculty Member.
- 1981 Above renewed.
- 1982 Clearance rate of sessile rotifers. American Philosophy Society, Research Grant. (Penrose-21000).
- 1984 Acquisition of research microscopes and accessories. NSF-RUI grant for research microscopes and related materials; BSR-8405157. Co-PIs: G.H. Wittler and J.C. Tryon.
- 1988 Distribution of the gregarine parasite *Monocystis* in the earthworm *Lumbricus terrestris*. Associated Colleges of the Midwest Minority Scholar Grant to J. Hayashi; R.L. Wallace, mentor.
- 1989 Above renewed. Associated Colleges of the Midwest.
- 1989 Aquatic Research. Bing Farms, Inc.
- 1992 Associated Colleges of the Midwest Minority Scholar Grant to A. Felix (R.L. Wallace, mentor.)
- 1999 Ripon College, Professional Collaboration Grant: Limnological investigations on Green Lake.
- 2001 Ripon College, Professional Development Grant: Rotifer taxonomy.
- 2001 Underkofer Award, teaching award.
- 2003 Ripon College, Professional Collaboration Grant: Limnological investigations on White Lake.
- 2004 WISC grant to Drs. E.J. Walsh (PI) and R.L. Wallace (Co-PI). Life on the edge: Community structure of basal microinvertebrate consumers in endangered springs and ephemeral waters of the Chihuahuan Desert (US and Mexico). =
- 2004 Ripon College, Professional Collaboration Grant: Limnological investigations on White Lake.
- 2005 Associated Colleges of the Midwest, FaCE Project: *A tale of two projects: enhancing scholarship and teaching in one bite*.
- 2005 National Science Foundation: *Community composition and phylogeography of microinvertebrates of Chihuahuan Desert waters (U.S. and Mexico)*. 2005–2007. (Dr. E.J. Walsh, with UTEP as lead institution and RLW as a contracted collaborator; Ripon).
- 2012 Ripon College, Trustee Grant: *3-D visualization of rotifer trophi*.
- 2013 National Science Foundation (DEB 1257116): *Collaborative Research: Integrating genetics, life history, and morphology to understand the diversification of an enigmatic metazoan lineage*. 2013–2017. (Drs. E.J. Walsh (UTEP), R. Hochberg (UML), and R.L. Wallace (Ripon)).
- 2014 National Science Foundation (CHE 1429616): *MRI: Acquisition of a Liquid Chromatography/Mass Spectrometer for Accurate-Mass Determination and Complex Mixture Analysis*. (Drs. P.H. Willoughby, C.M. Bryon, and R.L. Wallace).
- 2015 NSF 1257116 — REU Supplemental Award request to *Collaborative Research: Integrating genetics, life history, and morphology to understand the diversification of an enigmatic metazoan lineage*.
- 2015 Underkofer Award, teaching award.
- 2021 National Science Foundation (DEB 2051710): *Collaborative Research: Life cycle evolution in Rotifera: The influence of sexual reproduction on contemporary systematics of Monogononta*. 2013–2017. (Drs. R. Hochberg (UML), E.J. Walsh & J.E. Mohl (UTEP), and R.L. Wallace (Ripon)).

Teaching Experience:

I routinely taught the following courses: Introductory Biology (both majors and non-majors, both with lab), Invertebrate Zoology, Limnology, Scientific Writing in Biology, Microbiology, and Marine Field Ecology (with field trip). As the demand required, I have taught, Parasitology (5x), Cell Physiology (2x), and Environmental Studies (topical seminars, 2x). In the summer (>10 years) I taught *Insect Biology* to 3–7 graders in the Ripon College, community outreach program called “Advanced College Experience.”

Honors:

I have been recognized as a May Bumby Severy Professor (for Teaching Excellence) at Ripon College on four different occasions (1981, 1982, 1993, 1996, 2006); in 2001 and again in 2015, I was awarded the James R. Underkofer Excellence in Undergraduate Teaching Award. In 1994, 2001, and 2014 I was the Ripon College nominee for the CASE Professor Award, a national award based on teaching excellence.

Currently I am the Patricia and Philip McCullough Professor of Biology, emeritus. At the 2004 annual meetings of the Association of College and University Biology Educators (ACUBE) I was awarded the "Out of this world teaching idea."

Publications: Undergraduate students (Ripon* or UTEP†) at the time the research was started): I proscribe to the Boyer Model of the Professoriate¹. Here I the meaning of his categories in my terms.

Discovery (D) — This category covers contributions to the stock of human knowledge and at the same time contributing to the intellectual climate of one's own institution. (* = Undergraduate students).

Integration (I) — A category of discovery that gives new meaning to isolated facts. **Application (A)** — This category covers service and activities directed to one's special fields of knowledge, including to the infrastructure of one's discipline (e.g., book reviews, n=23); service to Ripon College is documented in my annual *Addendum to Vitae*. **Teaching (T)** — While teaching is a dynamic endeavor involving both educating and exciting students to become informed citizens and, for those who go on to post-graduate education, it is more than just the local sage on the stage; it involves sharing ones ideas with the wider world, both academic and non-academic; here I list publications.

Abstracts: Over the years starting with 1974, my colleagues I have presented numerous abstracts; none of them are accounted for here. These abstracts represent oral or poster presentations at scientific meetings: e.g., American Society of Limnology and Oceanography, American Society of Zoology, Association of College and University Biology Educators, Ecological Society of America, International Society of Limnology – Societas Internationalis Limnologiae (SIL), International Rotifer Symposia, International Zooplankton Meetings, Italian Zoological Society, Benelux Congress of Zoology. I estimate that perhaps up to 50% of the scientific publications listed below were presented at a meeting (either national or international) before being submitted for publication in a journal.

While none of the work I did was very important, it was very important that I do a great deal of it. — Modified, Joseph Heller

Discovery (D) Integration (I) Application (A) Teaching (T)

Discovery (D) Integration (I) Application (A) Teaching (T)

Special invited lecture sessions

2014. Invited Lecture Series: Rotifera – to the faculty and graduate students of the University of Mexico, Iztacala.
2016. Invited Lecture Series: Rotifera – to the faculty and graduate students of the University of Mexico, Iztacala. [Expanded from the 2014 series.]
2024. Invited Lecture Series: Information on Superorder Gnesiotrocha – to the faculty and graduate students of the University of Mexico, Iztacala.

Edited Volumes:

I have reviewed and edited textbooks, chapters in encyclopedic volumes, and other professional works for several publishing houses including Academic Press, Benjamin/Cummings, Elsevier, HarperCollins, Kluwer, Macmillan, Oxford, Prentice Hall, Publications International, and Wm. C Brown.

Newsletters:

Rotifer News, editor 1980–1991. (bi-annually). [New editor took over in 1991. It has subsequently gone extinct]

Commentaries, editorials, and related popular works:

Wallace, R.L. 1994. On the current debate over the destruction of variola - the smallpox virus: (U.S., Russia can work together to destroy last smallpox virus. *The Oregonian*, 12 May 1994; *The Houston Post*, 16 May 1994); (No Mercy for Variola, a Mass Murderer. *St Louis Post-Dispatch*, 28 May 1994); (Big decisions about smallpox. *Providence Journal-Bulletin*, 4 June 1994); (Mass Murdered that Deserves to be Zapped -- Smallpox Virus. *Valley News* 7 June 1994); (It's time to put a mass killer - smallpox - to death. *Ripon Commonwealth Press*, 23 June 1994 and *The Milwaukee Journal*, 26 June 1994).

Exhibits: Photographs posted on the teaching web site of the American Society of Limnology and Oceanography <https://www.aslo.org/> → Media → Online Media Library

I was invited (2015) and submitted material about rotifers to <http://microbestiary.org/>. This web site — developed by Naomi L. Ward, Associate Professor; Dept. of Molecular Biology and Dept. of Botany and H. L. Hix, Professor, Philosophy Dept. and Creative Writing MFA — is an illustrated catalog of animals.
