I acknowledge that the above scholarships are expected to be paid to the college during the 2027-28 academic year. **I understand that the scholarships will be placed on my financial aid as "expected scholarships" until they are received in the Office of Financial Aid at which time they will be switched to a received scholarship fund.** In the event of the scholarship check being paid directly to the student, it is the student's responsibility to notify the financial aid office to have the scholarship removed as "expected" in order to update the student account balance. At which time the balance will reflect the difference of the removed scholarship.
